

RUNWAY GROOVING SERVICES

Get in Touch!

Jointline provides robust, compliant concrete and surfacing works for military and civilian aviation environments. With in-house expertise and specialist plant, we support airfield construction, maintenance, and reinstatement projects across the UK. All works are delivered with minimal disruption, ensuring long-term operational resilience and safety.

Key Benefits:

- Improved water dispersion for enhanced surface drainage
- Increased skid resistance, reducing the risk of aquaplaning
- Compliance with international aviation safety standards
- Minimal disruption through efficient project execution
- Suitable for various runway surfaces, including asphalt and concrete

Why Choose Jointline:

- Over 30 years of experience delivering airside marking solutions
- Operates a specialist fleet with high-output, precision-controlled equipment
- ISO 9001, ISO 14001, and ISO 45001 certified
- Constructionline accredited, with airside-pass cleared operatives
- Proven track record across UK and international aviation projects

Let us help you take your project to the next level. **Contact us today** to discover how our quality airfield grooving services can make a difference.
