

# ANTI-SLIP COATING SERVICES

*Get in Touch!*

Jointline's anti-slip coating for specialist surfaces offers a robust solution to enhance surface grip, extend service life and reduce liability. Our Anti-Slip coatings are designed to protect pedestrians, employees, and visitors from slip hazards across a wide range of sectors, ensuring consistent performance even under high-traffic conditions.

## Key Benefits:

- Significantly improved slip-resistance in wet or heavy-traffic conditions, protecting road users and site personnel
- Durable coating system engineered to withstand abrasion, pedestrian loads and frequent use
- Minimal disruption to operations through efficient preparation and rapid curing techniques
- Suitable for a variety of substrates including asphalt, concrete and specialist surfacing materials
- Long-term performance that reduces re-application frequency and lifecycle cost

## Suitable Uses:

- Distribution centres and logistics depots
- Leisure facilities, including arenas and stadium concourses and stairwells
- Industrial plants and factory floors
- Multi-storey and underground car parks
- Cold storage and food processing facilities
- Wash bays and vehicle maintenance areas
- Marine and ferry terminals
- Bars, restaurants and public houses

Let us help you take your project to the next level. **Contact us today** to discover how our anti-slip coating services can make a difference.
