ESD COATING SERVICES

Get in Touch!

Jointline delivers certified ESD-compliant floor coating solutions for safety-critical environments across aerospace, pharmaceutical, automotive, and manufacturing sectors. Designed for use in IATF and ATEX-rated zones, our coatings control electrostatic discharge, reduce explosion risks, and ensure full regulatory compliance without disrupting live operations.

Key Benefits:

- Complies with DIN EN 61340-5-1, ANSI 20.20, and TRBS 2153 standards
- Reduces electrostatic hazards and explosion risks
- Suitable for IATF and ATEX environments
- Seamless installation with no production downtime
- Durable, low-maintenance systems tailored to operational needs
- Optional UV-cured topcoat for same-day certification
- Cost-effective renovation alternative to full floor replacement

Why Choose Jointline:

- 30+ years of expertise in internal coatings and demarcation
- Proven delivery in high-risk, regulated environments
- ISO-certified quality, environmental, and safety systems
- Precision application using specialist surface preparation equipment
- Comprehensive documentation and aftercare inspections

Let us help you take your project to the next level. **Contact us today** to discover how our ESD coating services can make a difference.
