HIGH FRICTION SURFACING

Jointline delivers BBA HAPAS approved high friction surfacing for critical locations across the UK road network. Applied by NVQ-qualified operatives using specialist equipment and premium-grade materials, our solutions improve surface grip and enhance safety.

Key Benefits:

- BBA HAPAS certified for use on roads, slip roads, roundabouts, crossings, and junctions
- Improves braking performance and reduces collision risk
- Applied by trained, experienced teams using approved materials
- Cold-applied and hot-applied options available
- Rapid installation and minimal traffic disruption
- Supports compliance with road safety and skid resistance standards

Why Choose Jointline:

- 30+ years of surface treatment expertise across highways and infrastructure
- In-house fleet and operatives for full delivery control
- ISO 9001, 14001, and 45001 accredited
- Collaborative delivery with local authorities, principal contractors, and NRSWA teams
- Proven results in accident reduction and asset preservation

Let us help you take your project to the next level. **Contact us today** to discover how our high friction surfacing services can make a difference.
