

HYDROBLASTING SOLUTIONS

Get in Touch!

Jointline's hydroblasting services offer eco-friendly surface cleaning for airfields and highways. Our non-abrasive methods minimise downtime and maintain surface integrity, ensuring safety and compliance with strict standards.

Key Services:

- **Rubber Removal:** Restore runway friction for safe landings
- **Line Marking Removal:** Safely clear outdated markings without damage.
- **Surface Retexturing:** Improve surface grip for optimal performance
- **Fuel Spillage Cleanup:** Safety-focused removal of residues.
- **Graffiti Removal:** Quickly and safely removes graffiti, leaving surfaces clean and undamaged.

Eco-friendly:

- **Minimal Chemical Use:** Primarily relies on high-pressure water for an eco-friendly approach.
- **Reduced Water Consumption:** Utilises optimised water flow to minimise resource use.
- **Reduced Environmental Impact:** No dust or airborne particles compared to abrasive methods.
- **Minimal Surface Damage:** Preserves the surface's integrity, lowering repair needs and resource usage.
