ADVANCED JET DRYING SERVICES

Enhance your surface preparation with Jointline's state-of-the-art jet drying solutions. Our services ensure rapid and efficient drying across various applications, delivering superior quality and durability.

Key Features:

- **High-Speed Drying:** Achieve drying speeds up to 2.5 km/h, significantly reducing project timelines.
- **Versatile Applications:** Ideal for line marking, crack repair, joint sealing, tape application and removal and more.
- **Enhanced Safety:** Utilises non-flammable hot air, minimising fire hazards and ensuring a safer working environment.
- **Eco-Friendly Operation:** Low fuel consumption of approximately 12 liters per hour, promoting environmental responsibility.

Why Choose Jointline:

With over three decades of expertise in civils and line marking, Jointline has built a reputation for delivering reliable, high-quality services tailored to meet the unique demands of every project.

Let us help you take your project to the next level. **Contact us today** to discover how our professional jet drying services can make a difference.
