PREFORMED THERMOPLASTIC SERVICES

Get in Touch!

Jointline delivers fast, accurate installation of preformed thermoplastic markings designed for school playgrounds, distribution centres, industrial estates, and commercial sites. Applied using handheld gas torches, this versatile system eliminates the need for bulky equipment and allows for immediate return to service. Suitable for standard and bespoke designs, Jointline's preformed markings meet all relevant safety and visibility standards while providing long-term durability on high-use surfaces.

Key Benefits:

- Rapid Installation, applied with minimal disruption
- Durable Performance, withstands high-traffic and industrial wear
- Clear, High-Visibility Finish, retroreflective and anti-skid options available
- Customised Solutions, logos, symbols, and colour-coded systems tailored to site needs
- Versatile Applications, suitable for internal and external environments

Why Choose Jointline:

- 30+ Years of Industry Expertise, proven delivery across infrastructure, highways, education and commercial sectors
- Specialist Equipment and Application, fast, safe and durable methods by fully trained operatives.
- Certified to ISO 9001, 14001, and 45001 – Commitment to quality, sustainability, and safety
- Responsive Nationwide Service, efficient mobilisation with consistent standards across all locations

Let us help you take your project to the next level. **Contact us today** to discover how our preformed thermoplastic marking services can make a difference.
