SPECIALIST SURFACING SERVICES

Get in Touch!

Jointline delivers specialist surfacing solutions tailored to the exacting demands of highways, civil engineering, and infrastructure projects. Using advanced materials and proven installation techniques, the service enhances surface durability, skid resistance, and operational safety across a wide range of environments.

Key Benefits:

- High-friction surfacing improves road user safety
- Durable, long-lasting finishes suitable for heavy traffic and adverse weather
- Rapid application minimises operational downtime
- Customisable solutions including coloured and textured surfacing
- Compatible with Sustainable Urban Drainage Systems (SUDS)
- Delivered with full compliance to UK highway standards and specifications

Why Choose Jointline:

- Over 30 years' expertise in specialist surfacing across highways and civil sectors
- Fully equipped with thermoplastic, high-friction, and coloured surfacing plant
- Accredited to ISO 9001, ISO 14001, ISO 45001, and Constructionline Gold
- Skilled, CSCS/NVQ-qualified workforce ensuring efficient, safe delivery
- Proven track record with local authorities, Tier 1 contractors, and private clients

Let us help you take your project to the next level. **Contact us today** to discover how our specialist surfacing services can make a difference.
