TAR, SPRAY AND CHIP SERVICES

Get in Touch!

Jointline Ltd offers tar spray and chip surfacing solutions, providing a cost-effective and durable option for resurfacing roads, car parks, and other high-traffic areas. This method involves spraying a bitumen binder onto the existing surface and applying aggregate chips, which are then rolled to create a hard-wearing, skid-resistant finish.

Key Benefits:

- Cost-Effective: An economical solution for resurfacing large areas.
- Durable Finish: Provides a long-lasting surface suitable for high-traffic environments.
- Skid-Resistant: Enhances safety with improved traction.
- Quick Application: Minimises disruption with rapid installation.
- Versatile Use: Ideal for heritage sites, country parks and large estates.

Why Choose Jointline:

- Experience: Over 30 years in civil engineering and surfacing.
- Accredited: ISO 9001, ISO 14001, ISO 45001, and Constructionline Gold certified.
- Skilled Workforce: CSCS/NVQ-qualified operatives ensuring quality and safety.
- Nationwide Coverage: Branches in Lincoln and Bradford, delivering services across the UK.

Let us help you take your project to the next level. **Contact us today** to discover how our tar, spray and chip services can make a difference.
