THERMOPLASTIC LINE MARKING SERVICES

Jointline delivers high-quality thermoplastic line marking for highways, car parks, crossings, and urban infrastructure. Our in-house teams apply hot-applied markings using specialist equipment and premium materials, ensuring long-lasting performance in all traffic environments.

Key Benefits:

- Excellent durability and retroreflectivity under heavy use
- Ideal for roads, car parks, cycle lanes, junctions, and roundabouts
- Rapid cooling and curing for efficient traffic management
- High-visibility finish with anti-skid options available
- Applied by NHSS 7-accredited operatives using specialist plant

Why Choose Jointline:

- 30+ years of line marking expertise across highways and infrastructure
- ISO 9001, 14001, and 45001 accredited for quality, safety, and environmental standards
- Large in-house fleet with precision-controlled thermoplastic application
- Collaborative project delivery with contractors and public sector frameworks
- Trusted by principal contractors, local authorities, and highway agencies

Let us help you take your project to the next level. **Contact us today** to discover how our thermoplastic line marking services can make a difference.
